THE MULTI-PRESS *Offset Printers* COLUMBUS, INDIANA

DISTRIBUTORS OF EAGLE "A" PAPERS  
DESIGNERS OF FINE PRINTING

Dear Reader:

We are happy to be able to mail you this copy of the 1947 Hancock County Directory, as a compliment from the many merchants who supported this edition through their advertising.

As you can appreciate, the job of soliciting, editing compiling and publishing any directory is a tremendous task - and we realize that errors in spelling, omissions and etc., are bound to occur when you are dealing with some twenty thousand names and addresses, however, it has been our aim to keep such errors to a minimum.

Our representatives have found the folks in Hancock County to be typical of the American way of life, and have enjoyed the opportunity of meeting, talking and working with them. To those individuals who accepted the responsibilities of making the actual house to house canvasses, may we offer our whole hearted "thanks."

In closing we would like to explain that each copy of this Directory cost some merchant in the county approximately fifty cents, so as you thumb the following pages from time to time in search of names or addresses -- read the advertisements, keep those merchants in mind and support them with every possible purchase as they made the copy you possess possible, through their cooperative advertising.

Many, many thanks,

THE MULTI-PRESS

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It presents the findings of the research and compares them with the previous studies in the field. It also discusses the limitations of the study and the implications of the findings.

4. The fourth part of the report is a conclusion and a summary of the main findings. It provides a clear and concise statement of the research results and their significance.

5. The fifth part of the report is a list of references. It includes all the sources of information used in the study, such as books, articles, and other documents.

6. The sixth part of the report is an appendix. It contains additional information that is not included in the main body of the report, such as raw data, detailed calculations, and other supporting materials.

7. The seventh part of the report is a glossary. It defines the key terms and concepts used in the study, ensuring that the reader has a clear understanding of the terminology.

8. The eighth part of the report is a bibliography. It lists all the sources of information used in the study, providing a comprehensive overview of the research in the field.

9. The ninth part of the report is a list of figures and tables. It provides a visual representation of the data and results, making it easier for the reader to understand the findings.

10. The tenth part of the report is a final summary. It provides a brief overview of the entire study, highlighting the key findings and the overall contribution of the research.
